West Duxbury ..... See Kingston

REVISED TO INCLUDE CHANGES ARRANGED FOR THROUGH JUNE 28, 1943

Copyright, 1943, by New England Telephone & Telegraph Company

Printed in U. S. A.

GENERAL INFORMATION

If you want your telephone moved or a new one installed, notify our Business Office as far in advance as possible.

Employees authorized to install, change or remove our equipment, or to represent this Company in business transactions, are provided with an official form of identification. Please do not deal with persons claiming to represent the Company unless such identification is shown.

TELEPHONE DIRECTORY

This directory is the property of the Company. Additional copies to replace those lost or mutilated will be furnished by the Service Representative. To prevent calls to old numbers, please surrender it when a later one is issued.

Additional listings may be arranged for other members of the household or business associates by calling your Service Representative.

Please verify your listing upon receipt of a new directory and report any error to your Service Representative. Although every precaution is taken to secure accuracy, the Company cannot assume liability for losses due to errors in its directories.

We suggest that you correct from each new directory any personal list of numbers frequently called, thus avoiding calls for wrong numbers.

The annual Business Telephone Directory lists under appropriate headings all businesses having telephone service in any part of this Company's entire area. Each business customer may obtain a copy.

Directories of other cities in any part of the country may be obtained through your Service Representative. Prices on application.

ADVERTISING TELEPHONE NUMBERS

The needs of the service occasionally require changes in numbers. To assist in maintaining good service, numbers displayed on stationery, signs, trucks, etc., should be corrected promptly in case they are changed.

Featuring residence telephone numbers for business purposes is not permitted.

TELEGRAMS BY TELEPHONE

If you wish to send a telegram, cablegram or radiogram, call the Postal Telegraph-Cable Company or the Western Union Telegraph Company according to instructions shown under their listings. Charges will appear on your telephone bill unless you use a public or coin box telephone and deposit the charges in the coin box.

FAILURE OF SERVICE

For any complete failure of service continued more than twenty-four hours and brought to the notice of the Company, a prorata adjustment of the charge or guarantee will be made.

EQUIPMENT

The Company does not sanction the use of special devices attached to its telephones, except those furnished by it. Unauthorized attachments supposedly an added convenience, may actually be detrimental to good service.

All equipment is the property of the Telephone Company and should be carefully used. It is not to be moved or removed except by the Company and is not to be connected with apparatus or instruments not installed or approved by the Company.

PARTY LINE SERVICE

Party line business service is a low cost service on which two or more customers share the same line. Residence service of this type may be shared by two or more families each consisting of several people. Those who subscribe to this service must expect to place or receive some calls with a possible delay when others are using the line. Good service depends largely upon the cooperation of all members of all families sharing the line in limiting their conversations reasonably and giving immediate right of way to emergency calls.

USE OF SERVICE

Service is not to be used in competition with the business of the Company. The use of business service is restricted to the customer, his agents and employees engaged in his business. The use of residence service is restricted to the customer's household.

Service is furnished at business rates if the use of the service is primarily or substantially for business purposes, or if the service is furnished at a business location. Service is furnished at residence rates if the use of the service is primarily for social or domestic purposes.

BUSINESS TRANSACTIONS WITH THE COMPANY

All business transactions regarding telephone service, such as application for new or additional service, changes or discontinuance of existing services, directory listings or matters in connection with telephone bills or their payment, are handled by the Business Office.

Your Service Representative at that office, who makes your service her individual responsibility, will furnish promptly all available information and assistance. If you prefer to pay bills in person, she will give you the address of the most conveniently located Business Office or Payment Agency.

The following Business Offices serve the exchanges listed in this directory. There is no charge for calls to your Business Office:

Exchanges Served	Telephone Number	Business Office
Duxbury, Kingston, Manomet, Marshfield, Plymouth	Plymouth 9900	1 Leyden Street Plymouth, Mass.
Office Hours: Saturdays 8.30 A. M. to 12 Noon. Other Week Days 8.30 A. M. to 5 P. M.		
Carver, Middleboro	Middleboro 9900	13 No. Main St. Middleboro, Mass.
Office Hours: Wednesdays 8.30 A. M. to 12.30 P. M. Saturdays 8.30 A. M. to 12 Noon. Other Week Days 8.30 A. M. to 12.30 P. M. and 1.30 P. M. to 5 P. M.		

MELVILLE P. STRAKER, Manager

Payments may be made at the following locations in addition to the Telephone Business Offices:

Carver
Telephone Central Office,
Main Street, Center Carver

Kingston
Jordan's Pharmacy,
65 Summer Street

Duxbury
Telephone Central Office,
Washington Street

Manomet
Telephone Central Office,
State Road

Marshfield
Telephone Central Office,
Main Street

THE SIMPLICITY OF OUT-OF-TOWN CALLS

Out-of-town calls are quite as easy to make as local calls, and in most cases they go through while you hold the line.

All you need do is give the number to your local operator.

Here are some suggestions to help you decide whether the lower-price station-to-station call will serve your needs or whether a person-to-person call is necessary.

STATION-TO-STATION CALLS

When you want us just to connect you with an individual line or party line telephone or private switchboard, call the operator and tell her the city, state and telephone number.

If you don't know the number, you may get it by calling "Information."

If you are unable to get the number, give the operator the name and address, as for example, "Buffalo, New York. Anyone at Read's Department Store, 2100 Broad Street."

The charge for a station-to-station call begins when the called telephone or private switchboard operator answers.

See the opposite column if you want to call either a particular person or a particular telephone or department reached through a private switchboard.

NIGHTS AND SUNDAYS

Charges to most out-of-town points are reduced nights from 7 P. M. to 4:30 A. M. and all day Sunday. See inside front cover for typical rates.

PERSON-TO-PERSON CALLS

When you want to be connected with some particular person or with a particular telephone or department reached through a private switchboard, dial "Operator" or ask for "Long Distance." Tell the operator exactly whom you want; give the telephone and extension number too, if you can.

The initial charge is more than for a station-to-station call but begins only when you reach the person, extension, or department you call.

Appointment and messenger calls take person-to-person rates, plus the cost of any messenger service performed.

TO ASCERTAIN CHARGES

If you wish to be told the charge on any out-of-town call, ask the operator when you make the call. After you hang up the receiver, the operator will compute the charge and call you back.

COLLECT CALLS

Charges for any out-of-town call will be put on the bill of the called party, if someone at the called telephone agrees to accept the charges. If charges are to be reversed, tell the operator when giving her your call.

Reversal of charges is permitted on all classes of long distance service except calls to Mexico and Overseas calls. No additional charge is made for this service, except that a higher rate applies on station-to-station calls where the rate is 20 cents or less.

HOW TO USE DIAL TELEPHONES

GENERAL INSTRUCTIONS

Be sure of the right number, if in doubt consult the directory. Then, lift the receiver and listen for the steady hum of the dial tone, which means the equipment is ready for your call.

With the receiver at your ear, put your finger in the space over the first figure of the local number desired, turn the dial clockwise until your finger strikes the stop, lift your finger and allow the dial to return to normal itself. Do not hasten or retard it. In the same way dial, in order, the other figures of the number desired. If you make a mistake in dialing, replace the receiver a moment, then remove the receiver, listen for dial tone and dial the complete number again.

After dialing you hear either the frequent "burr-r-r" of the ringing signal or the rapid "buzz-buzz-buzz" of the busy signal. If neither is heard, replace the receiver a moment, then dial again. In case of repeated failure dial "Operator" for assistance.

When through talking, just replace the receiver. Wait a few seconds before starting another call. Do not touch the receiver hook until the call is finished, to do so may break the connection and mean making a new call.

If you do not hear the dial tone within a reasonable time, replace the receiver for a few seconds and try again. If not heard on subsequent attempts, your telephone may be out of order and should be reported by dialing "Operator" from another telephone.

HOW TO DIAL "OPERATOR"

Listen for the dial tone, then dial once from the last space in the dial, marked "Operator."

DIAL "OPERATOR" (No Charge) FOR

Assistance—on a call you have failed to complete by dialing yourself.

Instruction—on dialing.

Emergency Calls—Dial "Operator," say "Emergency Fire" or "Emergency Police," give the address and telephone number from which you call and the name of the city or town.

Service Calls—See page 1.

OUT-OF-TOWN CALLS

For out-of-town calls, dial "Operator." See page 4.

MAKING CALLS FROM PARTY LINES

Calls from party lines, rural lines or extension telephones are made in the same manner as other calls. They are, however, subject to occasional interference by others on the line. Always listen before starting to dial, to be sure the line is not in use. If you do not hear the dial tone, inquire if the line is being used.

If you hear a series of clicks when listening for the dial tone, some one on your line is dialing. Wait until the clicking stops, then tell the other party you have interfered with his call. Replace your receiver and allow a reasonable time for the other call.

If while you are dialing you hear some one remove a receiver or start to dial, tell him that the line is busy and request him to hang up. When he does so replace your receiver for a few seconds and then dial your call again. Interference by another party after you have finished dialing will not break your connection.

TO CALL A TELEPHONE ON YOUR OWN LINE

or

TO CALL FROM A COIN BOX TELEPHONE

See instructions preceding listings for each dial service exchange.

KINGSTON, MASS.

TO CALL A TELEPHONE ON YOUR OWN LINE

If you are on a FOUR-PARTY line, you receive a card showing the name and special number of the other telephones on your line. To call such a telephone follow the instructions on the card, dialing the special number, not the directory number. If you have no card, dial "Operator" for assistance and request a new card.

On a RURAL line, if the first three figures of a desired telephone number are the same as the first three figures of your own number, the telephone is on your own line. To call such a telephone, lift the receiver, listen for the dial tone, then dial the figure "9", then the last figure of your own number, and then the last figure of the desired number. For example: If your number is 8121 and you wish to call 8125, you dial 9-1-5. After dialing, replace the receiver at once. Your bell and the called telephone bell will then ring at regular intervals until answered. If there is no answer, stop the ringing by lifting your receiver for a few seconds.

TO CALL FROM A COIN BOX TELEPHONE

Do not deposit your coin until the operator requests it.

For local and out-of-town calls—Lift the receiver, and when the operator answers, give her the call.

FOR GENERAL INSTRUCTIONS SEE PAGE 5

What's the Telephone doing in this WAR?

THE TELEPHONE is doing in this war just what the telephone is built to do . . . it's helping get jobs done faster. Now it's guns as well as groceries being ordered. Now more telephones, everywhere, are in action. Now the hurry's a hundred times more urgent.

That's why the telephone has an extra half million calls to handle in New England every day. Seven million telephone calls each twenty-four hours.

Thousands more telephones in service than a year ago. That's war work . . . not in just one place . . . all over this New England territory.

Telephones for army maneuvers and for troop movements. Telephones for airfields, for camps, for shipyards and arsenals, for war industries. Telephones for a Civilian Defense Communication System. . . . Telephones for the Aircraft Warning Service. Telephones for men to call the homes they are fighting for.

That means a lot more telephone work, hundreds of new long distance circuits, extra permanent and portable emergency power plants, alternate routes to strategic points, many miles of new underground cables and much new automatic protection for vital telephone communication lines . . . in this Company's territory.

The telephone has a war job . . . twenty-four hours a day, every day.

Few new telephone lines can be built until after the war, due to the copper shortage. Those we have are badly crowded. Please reduce non-essential long distance calling, and make all calls brief.

Shwom Bros 305 Court Plymouth-789

"WHAT'S IN A NAME?" Shakespeare was right about the rose—its name is unimportant. But if he'd had anything to do with naming telephone exchanges, he'd have learned a lot. Names must be easy to pronounce and transmit —must not look or sound like other exchange names—must not use the same dial finger spaces. Often hundreds of names are listed, studied, discarded before one is found that meets all requirements.

High morale, devotion to duty, ingenuity in meeting new circumstances and the ability and will to work with each other and with the public are traditional characteristics of telephone employees.

Times like these not only demand these characteristics, they serve to create and extend them.

Now, more than ever, the creed of telephone workers is expressed in these simple words . . . . "We'll do our best to get your call through."
